## Bloody harry potter

FoodM S Harry Potter on the subject of festive treats include a rather magical Advent CalendarPlus, chocolate frogs and an edible gold bug, too. By Sophie McEvoy The adventurous stories of the boy with a flash scar will never stop. J.K. Rowling, the author of one of the most famous books and film series, Harry Potter, has just released a new story on his fan site, Pottermore. The 1,500-word story is written in the form of a gossip column for the assistant newspaper, the Daily Prophet, and describes a grizzled, 34-year-old Harry attending the Quidditch World Cup final. Unfortunately, the play is only available to pottermore subscribers, but several reports give insight, revealing that the story reveals details about the likes of characters Neville Longbottom, Luna Lovegood and of course Ron Weasley and Hermione Granger. The news related to Potter continues with a philanthropic announcement from Emma Watson, the actress who plays Hermione. She wrote on Twitter that she will be a goodwill ambassador for UN Women, the United Nations Entity for Gender Equality and Women's Empowerment. The organization is made up of representatives who are responsible for helping to improve the lives of women and girls around the world by addressing discrimination and gender equality. Watson will be one of those MPs, advocating for women's empowerment. Women's rights are something so inextricably linked to who I am, so deeply personal and rooted in my life that I can't imagine a more exciting opportunity, she said. Meanwhile, Harry Potter, also known as Daniel Radcliffe in the real world, brews some Broadway magic in the New York play, The Cripple of Inishmaan, which ends its shows this month. I always ordered them online, and I would practically sit at the end of the aisle near my mailbox until the truck arrived with my book. And unlike some series, in which the sequels could never match the magic of the first book, every successive Harry Potter managed to up, I take the cardboard box, tear it up and hole myself in my room until I finish the whole story. What I liked most about reading the series as it came out was that I almost always had the same age as the characters. As we get older, of Harry Potter too, I felt that each fit perfectly with my current scene in life. Yet, as much as I liked each book, I have my favorites. It may have changed over the years, but there has always been the one that has spoken to me the most. And isn't that so for most fans? You can be head on heels for the series (and when people ask what you would bring to a desert island, it feels to choose only one), but there is always this slice that holds a special place in your heart. What does this special say about you? Harry Potter and Sorcerer's StoneYou keep things classic, and you love it when books lure you into another world. One of your favorite daydreams is to fall into a rabbit hole or earn superpowers or, of course, receive a letter from Hogwarts. People appreciate your whimsical and young spirit, and you're quite optimistic, whether you realize it or not. And your copy of Sorcerer's Stone is beaten beyond belief, because you've read it countless times. Harry Potter and the House of SecretsFes have called you a secret, so you can refer to the title of this book. But really, you just enjoy a little mystery and intrigue in your life. You always have a sense of humor, however, and often relate to characters who are a little offbeat. Although some people say that the original is still the best, you enjoy a great suite. Harry Potter and the Prisoner of AzkabanYou don't judge a person by the rumors you've heard, because you know that sometimes learning a little backstory will completely change his mind. Although you've had your share of tough days and can relate to the feeling that demoters inspire, you're also incredibly hopeful (and you know that chocolate can help a lot). You also own a time-turner necklace and you really want to visit Hogsmeade.Harry Potter and the FireLet Cup to be real: You like a bit of drama. From exciting tournaments to sporting events about to play fantasy balls, you're always adventurous. You would certainly have entered your name into the Cup of Fire, and you have strong opinions about the different relationships in the book. Most of the time, you are an adrenaline seeker who likes to solve difficult problems, whether it's heart problems, puzzles or physical challenges. Harry Potter and the Order of the PhoenixYou have gone through a phase of anguish. In fact, you've always been a bit of a rebel, and you certainly said the words Nobody understands me (or at least thought). When it comes to him, however, you are fiercely loyal to those you love, and you are always the first to defend the outsider. You're also a little fascinated by the mystery and things in life that you don't understand - you like to spend time thinking about the deeper issues of life. Harry Potter and the Half-Blood PrinceYou. Love. Love. One of your favorite parts of the Harry Potter series is the personal relationships between the characters, and you are very dedicated to your favorite ships. In your own life, you always have the backs of your friends, although you may be sometimes by new romantic perspectives. Yet, at the end of the day, you are a true friend, and you always defend what is right. You love justice and learning, and have a very diy attitude when it comes to getting things done. Harry Potter and the Deathly HallowsWhen all loose ends are attached, you are happy. Some may call you a perfectionist, perfectionist, really, you just want things to be good for the people you care about. You have a fighting spirit, and would not have hesitated to sign up for the Battle of Hogwarts. You are focused on detail, patient and loyal, and when you hear the words always or everything is fine, you immediately burst into tears.
